

BRUTALLY MURDERED.

A Cashier's Heroic Struggle in Defense of His Charge.

By Determined Robbers, Who Seized the Vault and Made Their Escape—The Whole Community Aroused and in Pursuit.

SOMERWORTH, N. H., April 17.—While making the entry of two desperate and determined robbers, and during a heroic but futile struggle to protect \$100,000 or more in money and securities in the compartments of the open vault of the Great Falls national bank at Somerworth, yesterday afternoon, Cashier Joseph A. Stickney was struck down and brutally murdered near the desk which he had occupied for years. After killing Stickney, the murderers ransacked the vault and fled with all the cash it contained with the exception of a five dollar gold piece. As news can be estimated, about \$6,000 was taken, but it is possible that the amount will considerably exceed this sum, as no one but the dead cashier knew the exact amount that was in the institution at the time.

The robbers, after knocking Stickney down with a blackjack, cut his throat. The most remarkable feature of the robbery is the fact that \$100,000 in bonds of the United States, which were kept in one of the drawers of the big vault, and which the robbers evidently examined, were not taken.

Neither was any of the negotiable paper and securities of the bank—in fact, nothing is missing except the cash. No one was aware that there was anything wrong at the bank until two o'clock, or an hour after the murderous work was done. The perpetrators had ample time to escape, and yesterday evening scores of deputy sheriffs, marshals, police and citizens were scouring the section of the state and the adjoining state of Maine, which from this city is just across the Salmon Falls river.

The men made their visit to the bank at the busiest time of the day in the locality where the bank is situated, and so completely and thoroughly did they accomplish the robbery that only an uncertain clue and a very meager description of them was obtainable.

GRIM VIZAGED WAR

With all its Attendant Horrors and Sacrifices Begun Between Turkey and Greece.

CONSTANTINOPLE, April 18.—The council of ministers has declared that a state of war exists and has ordered the army to march to the front. A detailed circular sent this evening to the Turkish representatives abroad recalls the week's invasions and states that the newest incursion was participated in by the Greek troops, which,

therefore, established war. The circular expresses the hope that the powers, in a spirit of justice, will agree that the entire responsibility for the war falls on Greece. Turkey has no idea of conquest, and, as a fresh proof of pacific sentiments, offers to retire the Turkish troops from the frontier if Greece will retire hers from the frontier and from Crete.

LI HUNG CHANG'S WORK.

China to Have a New Set of Treaties with Commercial Nations.

WASHINGTON, April 17.—China is to have a new set of treaties with the great nations of the world, which will in some measure emancipate her from the onerous restrictions she is now under and enable her to adjust her own relations to the nation's needs. Much of the credit for securing the consent of the commercial powers to the negotiation of these treaties is due to Li Hung Chang, who employed to the best advantage the opportunities afforded by his tour of the world. Still the change would have been long deferred had not the war which China waged unsuccessfully with Japan so involved the former in debt as to oblige her foreign debtors to recognize the fact that China must be given power to raise additional revenues.

THE GREAT FLOODS.

The Situation in Madison Parish, La., Growing Worse.

Delta Almost Depopulated—Reports From Many Places Tell the Story of Adverse Conditions and Floods—Widening Crises.

VICKSBURG, Miss., April 18.—At 6 p. m. the river was 51 feet 8-10ths, a fall of 3-10ths in the past 24 hours and a total of 8-10ths since the crevasse at Biggs levee at 10 o'clock Friday night. The situation in Madison parish, La., is growing hourly worse. The flood of water going through the Biggs break in the levee is fast covering the lowlands and is flooding Bayou Vidal and the greater part of the land in the southern portion of the parish.

The water has reached Tallulah, some sixteen miles west of Delta. The water had risen seven feet in the bayou at Tallulah and was rising a foot an hour at noon today.

Delta is about depopulated, only enough persons remaining to look after the houses. Many of them have two or three feet of water in them. The backwater is fast covering lands north of Delta and at Young's Point much land is already covered. At Omega the floods are coming fast. Relief boats are running to Davis' island and Kellogg's section.

Planters in the central and north part of Madison are placing their stock in reach of boats on the river front or at stations on the line of the Vicksburg & Shreveport railroad, so they can be moved in the event of another break in the upper portion of the parish, which is not beyond contemplation. Milliken's Bend and Duckport levees are both saving.

Reports from Madison parish state that the water began rising in Bushy bayou, at Tallulah, at 7 o'clock this morning and up to about 3 p. m. it had risen seven to eight feet.

About three miles below Tallulah the water is getting over the levees and is overflowing everything two miles below. It will not be upon the higher lands until tomorrow as there is several feet of bank left in the bayou.

Richard, La., was heard from all day and reports the water going all over everything, overflowing King's and Kell's places, also the villages of Tridwell and Lumbard, eight miles below Tallulah. The telegraph line is down some distance below Richard and communication was shut off from there up to noon today. The water is beginning to back up Lake One, on the line of the Vicksburg & Shreveport roads.

Work is still going on at Milliken's Bend levee, and they are reported in good shape there. They worked about twenty men there to-day and will work tomorrow with a much larger force.

The people at Tallulah are building up the levee on Bushy bayou as far south as Sevier's, about eight miles south, in an endeavor to hold the water back until the water subsides.

No More Breaks, But Former Cravasses Widening.

MEMPHIS, Tenn., April 18.—No more breaks are reported in the Louisiana levee district to-night, although the embankments at Hancock and Ferriday, in the northern part of Concordia parish, are reported to be very weak and a break may occur at any hour. The crevasse at Biggs is now a seething torrent, and the water is spreading rapidly throughout Madison parish.

At Cowpen the levee is seeping badly, and although a superhuman effort is being made to hold it, many experienced river men are of the opinion that the break will occur sooner or later.

The town of Vidalia is in a very critical condition and many of the inhabitants are hastily packing their most valuable effects and are fleeing to Natchez. The waters from the Biggs crevasse will be expected to inundate the town by Wednesday.
